# Emergency Shelter Grant Program

## State Implementation

### Method of Grant Implementation

Emergency Shelter Grant (ESG) funds allocated to the State of Kansas for federal fiscal year 2005 will be made available to units of general local government. Local governments may distribute part or all of their ESG funds to private nonprofit organizations for approved activities. A recipient nonprofit organization must be tax exempt under Section 501 (c) (3) of the Internal Revenue Code. The organization must have an acceptable accounting system, voluntary board, and practice non-discrimination in hiring practices and the provision of services. ESG grant implementation will help end chronic homelessness in the United States by 2012.

### Continuum of Care Approach

The State of Kansas supports a continuum of care approach among State ESG recipients. Continuum of Care components include affordable, accessible, and integrated permanent housing and homeless services that enable individuals and families to reach the maximum degree of self-sufficiency possible. In reviewing ESG applications, the State relies on local units of government to determine what their communities' unique homeless needs may be, and how the ESG program can assist with those needs. This approach allows local jurisdictions to determine their own priorities and needs in addressing homelessness in their communities.

## **Selection Criteria**

An ESG Application Review Committee will evaluate applications for eligibility and funding. ESG applications will be rated on descriptions of need, capacity to complete proposed projects, expected outcomes, targeting of vulnerable populations, leveraging of additional resources, community planning and coordination. ESG application packages provide complete details.

All ESG grant categories require compliance with the K.S.A. 58-1402 Accessibility Standards, Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973, and Fair Housing Act, as applicable.
