d. Signature of Authorized Representative		e. Date Signed November 15, 2006	

Housing Opportunities for Persons with AIDS Program

Resources Expected

The State of Kansas expects to receive Housing Opportunities for Persons with AIDS (HOPWA) formula funding in the amount around \$332,000. Kansas received \$369,000 in 2003 and \$363,000 in 2004, when Franklin County and Linn County were shifted to the Kansas City, Missouri, metropolitan entitlement area. HOPWA Competitive funds were to expire in mid 2006, without the possibility of renewal, however an extension of one year was granted to exhaust unexpended funds. Competitive funds will be fully exhausted in early 2007. Effectively this will mean a loss of \$471,000 from the annual statewide budget.

Leveraging of supportive services, such as AIDS Drug Assistance (ADAP), primary care, case management, and other clinical or wraparound services, will remain constant at \$3,545,000. Supportive services will be coordinated across the state through the Ryan White case management sites. Access to HOPWA funds will be through the Ryan White case management sites to a central office at the University of Kansas School of Medicine-Wichita, Medical Practice Association. By mid 2007 the cost of operations and staff will shift to the Formula grant for the final 6 months of 2007 and thereafter.

Proposed Activities

Geographic Areas. The service area for HOPWA formula and competitive funding includes all Kansas counties except Leavenworth, Wyandotte, Johnson, Miami, Franklin, and Lynn. Kansas counties in the Kansas City metropolitan area receive HOPWA formula funding through the City of Kansas City, Missouri. The Kansas service area is classified as rural. HOPWA formula and competitive funding has provided statewide housing resources for persons living with HIV/AIDS in Kansas, beginning with direct services in the fall of 2003.

Priority Needs. Ongoing analysis of quality of life through surveys and Steering Committee recommendations indicate the highest priority of need based on reduced funding will be for short term rent, mortgage and utility payments. While long-term housing solutions are critical to the stability of HIV clients, regions will have to rely more on Section 8, Shelter-Plus Care and self sufficiency as housing plans for long-term solutions. The following are the recommendations:

- 1) Keep Short Term Rent, Mortgage and Utilities (STRMU) - some indicated not offering the emergency piece of this category. In Wichita it was felt there are other resources to get clients in emergency housing. Emergency services would have to remain as a category (but could carry a more restrictive use) because when clients are homeless or living with relatives/friends and do not have a lease, emergency category is the only resource we can use to move them into housing. Rents through STRMU are only for people currently in housing. Furthermore, in rural areas it may be necessary to house someone in a motel for a few days as some areas have no shelters. A couple of people indicated not offering the full 21 weeks.

RECOMMEND: STRMU to be maintained (up to the 21 weeks) including emergency services with added restrictions. In Wichita, motel stays would only be offered if every other resource for temporary housing is full or unavailable. The full 21 week cycle would remain available.

- 2) Monitor Tenant Based Rental Assistance (TBRA). TBRA was discontinued for a period of time when fear of funding loss due to loss of competitive funding loomed. The program was re-introduced early in 2006 and is being closely monitored for access. As funds are further diminished, this program will be discontinued.

RECOMMEND: TBRA will be monitored for cost effectiveness and viability throughout the cycle.

- 3) Keep the qualifying income at current levels.

RECOMMEND: There will not be a change in qualifying income (remains at 50% of median).

- 4) The response was mixed on offering services to only those with an AIDS diagnosis.

RECOMMEND: An AIDS diagnosis is not necessarily an indicator of someone who is in need, or even that they are too sick to work. The State will not change to offer services based on a diagnosis, but will continue to use the medical opinion on income and work that is given by providers to help with the case plans and helping clients make decisions about working or applying for SSI and SSDI.

- 5) Based on available funding, the steering committee realized that logically there should only be one staff member. However, all agreed that a second person should be maintained if at all possible.

RECOMMEND: Continue to research and secure other funding sources that would support a second staff person to help process client services and offer support to case managers.

The State of Kansas primary housing activities under HOPWA in 2007 will be:

- Tenant-based rental assistance
- Short-term rent, mortgage and utilities assistance
- Transitional/emergency housing
- Housing coordination.

Housing information services will also be drastically reduced or eliminated as those have been primarily made available through the competitive grant funds.

The supportive services that will be available in 2007 include:

- Nutritional supplements
- Mental health, drug/alcohol counseling and treatment
- Transportation.

Other resources will likely be unable to fill these gaps and Kansas residents living with HIV and AIDS will face increased barriers to care and quality of life with this reduction in services. A limited amount of money may be available through Ryan White Title II depending on the funding levels and reauthorization scheduled for the fall of 2007 Other potential but limited resources to fill in this gap will be localized through individual case management site activities and volunteer resources as well as The Sweet Emergency Fund.

Specific Objectives. With the past availability of Competitive funds, the HOPWA program has carryover funds available from the Formula grant to continue services at a greater level. HOPWA will re-institute tenant based rental assistance, increase STRMU assistance and meet the need for the year for nutrition, counseling and transportation. In addition HOPWA will be able to retain two employees laying off two in order to ensure that the maximum dollars go to client services yet maintain a reasonable staff to administer the program.

The State of Kansas will assure the availability of affordable housing, and prevent homelessness, for HIV positive individuals and their families. For HOPWA funding in 2007 (Formula and Competitive combined), the State will serve the following clients:

- 150 - short-term rent, mortgage and/or utility payments and deposit clients
- 60 - transitional client housing assists
- 40 - Tenant Based Rental Assistance clients
- 2,000 - cases of supplement = 300 clients served
- 4 - grocery centers supported with 115 clients served
- 30 - drug/alcohol or mental health services
- 180 Clients - transportation bus passes, taxi rides, or other services for medical appointments and housing appointments.

Distribution of Funds

The HOPWA funding will be distributed to landlords, mortgagors, utility providers and individual clients through the Ryan White CARE case management system. This system consists of 10 case management sites funded by the Health Resources and Services Administration (HRSA), Ryan White CARE Act, Title II.

The University of Kansas, School of Medicine-Wichita, Medical Practice Association (UKSM-W MPA), is the program sponsor for the Kansas HOPWA Program. In 1993, the UKSM-W MPA received federal funding to administer a statewide Ryan White, Title III, CARE Act program under the medical direction of Dr. Donna E. Sweet. The UKSM-W MPA HIV program

provides primary care for 60 percent of the clients in the Kansas Ryan White Title II program and over 80 percent of clients in Western, South Central, and Southeast Kansas. The UKSM-W MPA HIV program will administer the payment of HOPWA housing assistance and other requests for assistance submitted through the Ryan White case management system.

2007 HOPWA Funding

Eligible Activity	Formula
Supportive Services	85,000
Housing Information/TA	108,206
Rental Assistance	130,000
Short-Term Rent, Mortgage, & Utility	201,897
Subtotal of Activity Costs	\$525,103
Grantee's Administrative Costs	15,753
Project Sponsor's Administrative Costs	34,352
Collect Data on Project Outcomes	
Total	\$575,208
